## To determine the Picture Puzzle of the Year - Presented by Codex & Xemu

Each of the strings of letters on this page conceals a word or phrase which answers one of the clues below. In order to reveal these answers, you must place the string under one of the shrouds on this page (each shroud is used exactly once) and then pay your final respects. The strings, shrouds, and clues on the next page should be matched up in the same manner.

On each page, the locations at which you pay your respects will reveal half of a message. These two halves may not make much sense independently, but reading the first half followed by the second half will lead you to the puzzle's answer.
